With Q4 off to a volatile start, we have recorded a brief podcast with updated market commentary to equip you for client and prospect conversations. In this podcast recorded 10/30/2018, Kevin Barry (CIO) and Sam Kirby (Investment Strategist) discuss recent market events as we head into the midterm elections. Available via the OnDemand app and the web ([link](#)).

This is for internal use only, but please stayed tuned for further updates. We intend to produce a client-ready Market Thoughts piece next week, following the midterms.
