*Atlanta Capital defines a small company as one with a market capitalization greater than the market capitalization of the smallest company in the Russell 2000® Index and less than three times the weighted average market capitalization of companies in that Index. Atlanta Capital defines a small-to-medium company as one with a market capitalization greater than the market capitalization of the smallest company in the Russell 2500™ Index and less than three times the weighted average market capitalization of companies in that Index. **Since inception calculation relative to the stated benchmark. Active Share calculates the over / under weighting of stocks in a portfolio relative to an index to measure how aggressively it differs from the index. Down Market Capture (gross of fees shown; client results will be reduced by fees) is determined by the index which has a down-capture ratio of 100% when the index is performing negatively, if a manager captures less than 100% of the declining market it is said to be "defensive". Beta measures the historical sensitivity of portfolio excess returns to movements in the excess return of the market index. The value for Beta is expressed as a percentage of the market where the market beta is 1.00. A portfolio with beta below the market has lower volatility than the market and the return on the portfolio will move less than the market return. ***Managed in a similar strategy and distributed by an affiliate, Eaton Vance Distributors, Inc. Market cap, holdings characteristics and turnover are based on a single representative client portfolio for each strategy and are subject to change. Actual results will vary for each client. Past performance does not predict future results. Sources: FactSet and Atlanta Capital.

Consistent Growth & Stability in Earnings

Key Tenet of Our Investment Philosophy

Five-Year Rolling CAGR of As Reported Earnings
Russell 2500™ Index by Earnings Stability

Earnings Stability	Avg. 5-Year CAGR	Earnings Variability	# Positive Periods	# Negative Periods
High Quality Portfolio	8.4%	2.1%	120 or 100%	0 or 0%
Low Quality Portfolio	4.4%	4.0%	109 or 91%	11 or 9%

Time period: January 1, 1993 – December 31, 2022. This information is provided for general illustrative purposes only. The High Quality Research and Low Quality Research portfolios are provided to compare the aggregate earnings stability of all companies in the index with High Quality SPGMI Quality Rankings (B+ or Better) to those with Low Quality SPGMI Quality Rankings (B or Below). The High Quality Research and Low Quality Research portfolios are model portfolios formed and rebalanced monthly by Atlanta Capital. The universe includes all Russell 2500™ Index constituents with SPGMI Quality Rankings and prices greater than \$1. Five-year historical earnings growth rates are calculated using a market capitalization-weighted methodology. The Russell 2500™ Index is an unmanaged index of approximately 2,500 small- to mid-cap US stocks. Historical performance of the index and Research portfolios illustrates market trends and does not represent past or future performance of the strategy. The material is based upon information that Atlanta Capital considers to be reliable, however no assurances are provided. The material should not be considered investment advice or a recommendation to invest in a particular strategy. The views expressed herein are those of the investment team, are not necessarily indicative of Morgan Stanley, are subject to change, and may not necessarily come to pass. Past performance is not a reliable indicator of future results. Sources: FTSE Russell, S&P Global, Wilshire Atlas, Atlanta Capital as of December 31, 2022.

High Quality SMID Cap Investment Objective

April 1, 2004 – December 31, 2022

Our objective is to participate in rising markets, minimize participation during declining markets, and outperform over the long term without the volatility typically associated with small-to-mid cap investing.

*High Quality SMID Cap Composite inception date is April 1, 2004. Please reference the performance tables on page 14 for additional time periods and disclosures.

The charts above illustrate the long-term historical trend of the annualized returns of the High Quality SMID Cap Composite during both rising and declining markets since inception. Rising markets are defined as quarters where the return of the Russell 2500™ index was positive. Declining markets are defined as quarters where the return of the Russell 2500™ index was negative. Long-term investment returns include both rising and declining periods. These positive and negative quarters are separated out from the intervening quarters, cumulated across the period, and annualized. Composite performance is shown gross of investment advisory and custody fees; client fees and expenses will reduce the results shown. Performance during certain periods reflects strong stock market performance that is not typical and may not be repeated. Individual client returns will vary due to fees, client investment restrictions and inception date. Beta measures the historical sensitivity of portfolio excess returns to movements in the excess return of the market index. Standard Deviation is a measure of absolute volatility of returns. The unmanaged Russell 2500™ Index does not incur management fees or other expenses associated with managed accounts; it is not possible to directly invest in an index. Past performance does not predict future results. Source: eVestment and Atlanta Capital as of December 31, 2022.

Our Investment Philosophy & Process

“We believe that companies with a demonstrated history of **consistent growth & stability in earnings** provide attractive returns with moderate risk over the long-term.”

Step 1

CREATE A “FOCUS LIST” OF HIGH QUALITY COMPANIES

Evaluate U.S. companies having market capitalizations within the range of companies comprising the Russell 2500™ Index.

Exclude companies with:

- Volatile earnings streams
- Short operating histories
- High levels of debt
- Weak cash flow generation
- Low returns on capital

The result is a focus list of approximately 200 high quality companies.

The views herein are those of the investment team, are subjective, and subject to change. This represents how the portfolio management team generally implements its investment process under normal market conditions.

Our Investment Process

CONDUCT PROPRIETARY FUNDAMENTAL RESEARCH

Company specific research includes:

- Meet company management and visit facilities
- Communicate with competitors, suppliers and buyers
- Review annual reports, 10K's, 10Q's, periodicals, and journals

Research must answer the following questions:

- Is this the type of business we want to own?
- What price are we willing to pay?

This represents how the portfolio management team generally implements its investment process under normal market conditions.

What Kind of Businesses Do We Want to Own?

Financial Strength

- Sustainable Free Cash Flow
- High Return on Invested Capital
- Strong Balance Sheet

Innovative Business Model

- Dominate a Niche
- High Barriers to Entry
- Consistent Demand Over Business Cycle

Shareholder-Oriented Management

- Significant Ownership Stake in Business
- Rational Capital Allocation
- Proven Track Record

Overlooked & Under-Followed

- Limited Wall Street Research Coverage

What Price Are We Willing To Pay?

The chart depicted is for illustration purposes only and should not be construed as the potential gain or loss of a security that might be included in a representative portfolio. Past performance is no guarantee of future results.

Portfolio Construction & Sell Discipline

CONSTRUCT A FOCUSED YET WELL-DIVERSIFIED PORTFOLIO

- Focused portfolio of generally 50-60 companies that reflect our best ideas
- 5% max position sizes
- Sector weights limited to 30% absolute

MONITOR HOLDINGS & REVIEW FOCUS LIST

- Prudent profit taking/portfolio rebalancing as a response to price changes
“We will sell a business if”
- Change in management or business strategy
- Deterioration of financial quality
- Excessive valuation
- More compelling investment candidate materializes

This represents how the portfolio management team generally implements its investment process under normal market conditions.

	Downside Market Capture	Rank	Standard Deviation	Rank	Tracking Error	Rank	Alpha	Rank
High Quality SMID Cap	67.33	1	17.49	12	5.98	62	5.23	1
Russell 2500	100.00	65	20.46	57	0.00	1	0.00	96

For illustrative purposes only. Financial condition statistics are based on holdings in a representative client portfolio. The percentile chart shows the relative ranking of select risk statistics for the High Quality SMID Cap Composite in a select peer group of products compiled by eVestment. eVestment calculates risk statistics based on manager-reported gross of fee returns. The US Small-Mid Cap Core Equity universe includes US equity products that invest primarily in small and mid cap stocks with fundamental characteristics between growth and value or products that invest in a relatively even mix of growth and value stocks/sectors. Expected benchmarks for the products in the universe include the Russell 2500™; investment strategies in this universe will differ. Downside Market Capture is determined by the index which has a Down-Capture ratio of 100% when the index is performing negatively; if a manager captures less than 100% of the declining market it is said to be "defensive". Standard Deviation is a measure of absolute volatility of returns. Tracking Error measures the volatility of return differences between a composite and its benchmark over time. Alpha measures the product's value-added relative to the benchmark index. Inception date for the High Quality SMID Cap Composite is April 1, 2004. Composite performance is gross of investment advisory and custody fees, and a client's return will be reduced by these and other expenses. The Russell 2500™ Index includes the smallest 2500 companies in the Russell 3000® and is a widely accepted measure of the small- to mid-cap segment of the U.S. equity universe. The index is unmanaged and does not incur management fees or other expenses associated with managed accounts. It is not possible to directly invest in an index. The material is based upon information that Atlanta Capital considers to be reliable, but Atlanta Capital does not warrant its completeness, accuracy or adequacy. There is no guarantee that the products in the universe provide the most appropriate comparison for the High Quality SMID Cap strategy. Past performance does not predict future results. Source: eVestment and FactSet. Characteristics are presented gross of fees. Please refer to page 20 for standardized returns.

*Annualized. **The inception date for the High Quality SMID Cap Composite is April 1, 2004. Composite performance reflects reinvestment of all income and capital gains. Gross-of-fees performance returns are presented before management and custodial fees but after all trading expenses. Net-of-fees performance reflects the deduction of the highest management fee of 0.8% accrued monthly. Performance during certain time periods reflects the strong stock market performance and/or the strong performance of stocks held during those periods. This performance is not typical and may not be repeated. The Russell 2500™ Index includes the smallest 2500 companies in the Russell 3000® and is a widely accepted measure of the small to mid-cap segment of the U.S. equity universe. Strategy deviations from the benchmark may include but are not limited to such factors as active management, exclusion/inclusion of securities held/not held in the index, over/underweighting specific sectors or securities, limitations in market cap, and/or client constraints. The index is unmanaged and does not incur management fees or other expenses associated with managed accounts. It is not possible to directly invest in an index. Please see the Composite's GIPS® Report included at the end of this presentation for important additional information and disclosure. Past performance does not predict future results.

Atlanta Capital Management Company, LLC claims compliance with the Global Investment Performance Standards (GIPS®) and has prepared and presented this report in compliance with the GIPS Standards. Atlanta Capital Management has been independently verified for the periods January 1, 1999 through December 31, 2021.

A firm that claims compliance with the GIPS standards must establish policies and procedures for complying with all the applicable requirements of the GIPS standards. Verification provides assurance on whether the firm's policies and procedures related to composite and pooled fund maintenance, as well as the calculation, presentation, and distribution of performance, have been designed in compliance with the GIPS standards and have been implemented on a firm-wide basis. The High Quality SMID Cap Composite has had a performance examination for the periods April 1, 2004 through December 31, 2021. The verification and performance examination reports are available upon request.

GIPS® is a registered trademark of CFA Institute. CFA Institute does not endorse or promote this organization, nor does it warrant the accuracy or quality of the content contained herein.

Firm Definition: Atlanta Capital Management Company, LLC (Atlanta Capital or the Firm) is an SEC-registered investment adviser located in Atlanta, Georgia. The Firm became a majority-owned subsidiary of Eaton Vance Corp. in 2001. On March 1, 2021 Eaton Vance and its affiliates which included Atlanta Capital Management became a part of Morgan Stanley Investment Management, a division of Morgan Stanley. Atlanta Capital provides professional investment advisory services to a broad range of institutional and individual clients, and sub-advisory investment management to mutual funds and separately managed wrap fee programs. Atlanta Capital includes all discretionary accounts under management in its composites; total firm assets include discretionary and nondiscretionary accounts for which the firm has investment responsibility.

Composite Description: The investment objective of this style is to seek long-term capital growth. Accounts in this composite invest in common stocks of companies having market capitalizations within the range of companies comprising the Russell 2500™. Management seeks to invest in quality companies in strong financial condition whose equities are priced below their estimate of fair value. Characteristics of high quality companies include a history of sustained growth in earnings and operating cash flow, high returns on capital, attractive profit margins and leading industry positions. Investments are determined based primarily on fundamental analysis of a company's financial trends, products and services, and other factors. Financial quality rankings provided by nationally-recognized rating services may be utilized as part of the investment analysis but are not solely relied upon. The portfolios are broadly diversified. All fully discretionary accounts that are managed in this style and do not pay a bundled or SMA wrap fee are eligible for inclusion in the composite.

Benchmark: The composite's benchmark is the Russell 2500™ Index, a widely accepted measure of the small- to mid-cap segment of the U.S. equity universe. The index includes the smallest 2500 companies in the Russell 3000®. The investment process for this strategy is not limited by the relative weights of a benchmark. Strategy deviations from the benchmark may include but are not limited to such factors as active management, exclusion/inclusion of securities held/not held in the index, over/underweighting specific sectors or securities, limitations in market cap, and/or client constraints. Indexes include the reinvestment of dividends and earnings, are unmanaged, and do not incur management fees, transaction costs or other expenses associated with separately managed accounts. It is not possible to directly invest in an index.

Gross and Net Returns: Performance reflects reinvestment of all income and capital gains. Composite returns and market values are reported in U.S. dollars. Gross-of-fees performance returns are presented before management and custodial fees but after all trading expenses. Certain accounts in the composite do not pay commissions. Returns are presented net of withholding taxes. Net-of-fees performance returns are calculated by deducting the highest management fee of 0.80% from the monthly gross-of-fees returns. Other expenses will reduce a client's returns. The annual fee schedule for this composite is as follows: 0.80% on the first \$50 million in assets; 0.70% on the next \$50 million in assets; 0.60% on the next \$150 million. Actual management fees incurred by clients may vary.

Composite Dispersion: The annual internal composite dispersion is calculated using the asset-weighted standard deviation of annual gross of fee returns of those portfolios that were included in the composite for the entire year. Internal dispersion is shown only for composites that held at least six accounts for the entire year. The three-year annualized standard deviation measures the variability of the composite and the benchmark returns over the preceding 36-month period.

Notes to Composite: The creation date of this composite is May 2004. Effective March 1, 2008, the name of this composite changed from High Quality Small Cap-Extended Composite to High Quality SMID Cap Composite. Effective July 1, 2010, the composite was redefined to include both taxable and tax-exempt institutional accounts. The composite up to that time included only tax-exempt institutional accounts. The change provides increased transparency to prospective clients by reducing the number of separate composites maintained for this strategy. There has been no change in investment objective or management style. Clients or prospective clients should not assume that they will have an investment experience similar to that indicated by past performance results, as shown on the Schedule. Returns may vary based upon differences in account size, timing of transactions and market conditions at the time of investment. Performance during certain time periods reflects the strong stock market performance and/or the strong performance of stocks held during those periods. This performance is not typical and may not be repeated. Investing entails risks and there is always the possibility of loss.

Other Matters: The Firm's list of composite descriptions and policies for valuing investments, calculating performance and preparing GIPS Reports are available upon request. To request any additional information, please contact the Atlanta Capital Management Performance Department at 404-876-9411 or write to Atlanta Capital Management Company, LLC, 1075 Peachtree Street NE, Suite 2100, Atlanta, Georgia 30309, Attention Performance Department. **Past performance does not predict future results.**

Atlanta Capital Management Company, LLC claims compliance with the Global Investment Performance Standards (GIPS®) and has prepared and presented this report in compliance with the GIPS Standards. Atlanta Capital Management has been independently verified for the periods January 1, 1999 through December 31, 2021.

A firm that claims compliance with the GIPS standards must establish policies and procedures for complying with all the applicable requirements of the GIPS standards. Verification provides assurance on whether the firm's policies and procedures related to composite and pooled fund maintenance, as well as the calculation, presentation, and distribution of performance, have been designed in compliance with the GIPS standards and have been implemented on a firm-wide basis. The High Quality Small Capitalization Composite has had a performance examination for the periods January 1, 1999 through December 31, 2021. The verification and performance examination reports are available upon request.

GIPS® is a registered trademark of CFA Institute. CFA Institute does not endorse or promote this organization, nor does it warrant the accuracy or quality of the content contained herein.

Firm Definition: Atlanta Capital Management Company, LLC (Atlanta Capital or the Firm) is an SEC-registered investment adviser located in Atlanta, Georgia. The Firm became a majority-owned subsidiary of Eaton Vance Corp. in 2001. On March 1, 2021 Eaton Vance and its affiliates which included Atlanta Capital Management became a part of Morgan Stanley Investment Management, a division of Morgan Stanley. Atlanta Capital provides professional investment advisory services to a broad range of institutional and individual clients, and sub-advisory investment management to mutual funds and separately managed wrap fee programs. Atlanta Capital includes all discretionary accounts under management in its composites; total firm assets include discretionary and nondiscretionary accounts for which the firm has investment responsibility.

Composite Description: The investment objective of this style is to seek long-term capital growth. Accounts in this composite invest in common stocks of companies having market capitalizations within the range of companies comprising the Russell 2000®. Management seeks to invest in quality companies in strong financial condition whose equities are priced below their estimate of fair value. Characteristics of high quality companies include a history of sustained growth in earnings and operating cash flow, high returns on capital, attractive profit margins and leading industry positions. Investments are determined based primarily on fundamental analysis of a company's financial trends, products and services, and other factors. Financial quality rankings provided by nationally-recognized rating services may be utilized as part of the investment analysis but are not solely relied upon. The portfolios are broadly diversified. All fully discretionary accounts that are managed in this style and do not pay a bundled or SMA wrap fee are eligible for inclusion in the composite.

Benchmark: The composite's benchmark is the Russell 2000® Index, a widely accepted measure of the small-cap segment of the U.S. equity universe. The index includes the smallest 2000 companies in the Russell 3000®. Prior to July 1, 2005, the composite was also compared to the Russell 2000® Value Index as the portfolio construction process produced both core and value characteristics. Our high quality investment philosophy tends to be defensive in nature and does consider valuation metrics, but it is more consistent with the philosophy and process of a core manager than a value manager. As of July 1, 2015, to clarify our process for potential clients, we determined that it was most appropriate to benchmark our performance results against the Russell 2000® Index only. The investment process for this strategy is not limited by the relative weights of a benchmark. Strategy deviations from the benchmark may include but are not limited to such factors as active management, exclusion/inclusion of securities held/not held in the index, over/underweighting specific sectors or securities, limitations in market cap, and/or client constraints. Indexes include the reinvestment of dividends and earnings, are unmanaged, and do not incur management fees, transaction costs or other expenses associated with separately managed accounts. It is not possible to directly invest in an index.

Gross and Net Returns: Performance reflects reinvestment of all income and capital gains. Composite returns and market values are reported in U.S. dollars. Gross-of-fees performance returns are presented before management and custodial fees but after all trading expenses. Certain accounts in the composite do not pay commissions. Returns are presented net of withholding taxes. Net-of-fees performance returns are calculated by deducting the highest management fee of 0.80% from the monthly gross-of-fees returns. Other expenses will reduce a client's returns. The annual fee schedule for this composite is as follows: 0.80% on the first \$50 million in assets; 0.70% on the next \$50 million in assets; 0.60% on the next \$150 million. Actual management fees incurred by clients may vary.

Composite Dispersion: The annual internal composite dispersion is calculated using the asset-weighted standard deviation of annual gross of fee returns of those portfolios that were included in the composite for the entire year. Internal dispersion is shown only for composites that held at least six accounts for the entire year. The three-year annualized standard deviation measures the variability of the composite and the benchmark returns over the preceding 36-month period.

Notes to Composite: The creation date of this composite is July 1992. Effective July 1, 2010, the composite was redefined to include both taxable and tax-exempt institutional accounts. The composite up to that time included only tax-exempt institutional accounts. The change provides increased transparency to prospective clients by reducing the number of separate composites maintained for this strategy. There has been no change in investment objective or management style. Clients or prospective clients should not assume that they will have an investment experience similar to that indicated by past performance results, as shown on the Schedule. Returns may vary based upon differences in account size, timing of transactions and market conditions at the time of investment. Performance during certain time periods reflects the strong stock market performance and/or the strong performance of stocks held during those periods. This performance is not typical and may not be repeated. Investing entails risks and there is always the possibility of loss.

Other Matters: The Firm's list of composite descriptions and policies for valuing investments, calculating performance and preparing GIPS Reports are available upon request. Firm Definition: Atlanta Capital Management Company, LLC (Atlanta Capital or the Firm) is an SEC-registered investment adviser located in Atlanta, Georgia. The Firm became a majority-owned subsidiary of Eaton Vance Corp. in 2001. On March 1, 2021 Eaton Vance and its affiliates which included Atlanta Capital Management became a part of Morgan Stanley Investment Management, a division of Morgan Stanley. Atlanta Capital provides professional investment advisory services to a broad range of institutional and individual clients, and sub-advisory investment management to mutual funds and separately managed wrap fee programs. Atlanta Capital includes all discretionary accounts under management in its composites; total firm assets include discretionary and nondiscretionary accounts for which the firm has investment responsibility.

Composite Description: The investment objective of this style is to seek long-term capital growth. Accounts in this composite may invest in companies across a broad capitalization range, but primarily invest in mid- to large-cap companies comparable to those companies included in the Russell 1000® Index. Portfolios are primarily invested in U.S. securities but may also invest in American Depository Receipts (ADR's) or foreign companies traded on foreign or U.S. stock exchanges. Management seeks to invest in quality companies in strong financial condition whose equities are priced below their estimate of fair value. Characteristics of high quality companies include a history of sustained growth in earnings and operating cash flow, high returns on capital, attractive profit margins and leading industry positions. Investments are determined based primarily on fundamental analysis of a company's financial trends, products and services, and other factors. Financial quality rankings provided by nationally-recognized rating services may be utilized as part of the investment analysis but are not solely relied upon. All fully discretionary accounts that are managed in this style and do not pay a bundled or SMA wrap fee are eligible for inclusion in the composite.

Benchmark: The composite's benchmark is the Russell 1000® Index, a widely-accepted measure of the large cap U.S. equity universe. The index includes the largest 1000 companies in the Russell 3000®. Prior to October 1, 2011, the composite was compared to the Russell 3000® Index, an index that measures the broad U.S. stock market performance and includes approximately 98% of the U.S. market. The index was changed and restated retroactively to more accurately reflect the strategy's historic focus on larger cap securities. The investment process for this strategy is not limited by the relative weights of a benchmark. Strategy deviations from the benchmark may include but are not limited to such factors as active management, exclusion/inclusion of securities held/not held in the index, over/underweighting

specific sectors or securities, limitations in market cap, and/or client constraints. Indexes include the reinvestment of dividends and earnings, are unmanaged, and do not incur management fees, transaction costs or other expenses associated with separately managed accounts. It is not possible to directly invest in an index.

Gross and Net Returns: Performance reflects reinvestment of all income and capital gains. Composite returns and market values are reported in U.S. dollars. Gross-of-fees performance returns are presented before management and custodial fees but after all trading expenses. Certain accounts in the composite do not pay commissions. Returns are presented net of withholding taxes. Net-of-fees performance returns are calculated by deducting the highest management fee of 0.70% from inception through December 31, 2017 and the highest fee of 0.60% beginning January 1, 2018 from the monthly gross-of-fees returns. Other expenses will reduce a client's returns. The annual fee schedule for this composite is as follows: 0.60% on the first \$50 million in assets; 0.50% on the next \$100 million in assets; 0.40% on the next \$350 million. Actual management fees incurred by clients may vary.

Composite Dispersion: The annual internal composite dispersion is calculated using the asset-weighted standard deviation of annual gross of fee returns of those portfolios that were included in the composite for the entire year. Internal dispersion is shown only for composites that held at least six accounts for the entire year. The three-year annualized standard deviation measures the variability of the composite and the benchmark returns over the preceding 36-month period.

Notes to Composite: The creation date of this composite is November 2006. A non-fee paying account funded by our parent company is included in the composite from October 1, 2006 through December 31, 2017. Effective June 30, 2012, the name of this composite changed from High Quality Opportunistic Composite to High Quality Select Equity Composite. Clients or prospective clients should not assume that they will have an investment experience similar to that indicated by past performance results, as shown on the Schedule. Returns may vary based upon differences in account size, timing of transactions and market conditions at the time of investment. Performance during certain time periods reflects the strong stock market performance and/or the strong performance of stocks held during those periods. This performance is not typical and may not be repeated. Investing entails risks and there is always the possibility of loss.

Other Matters: The Firm's list of composite descriptions and policies for valuing investments, calculating performance and preparing GIPS Reports are available upon request. To request any additional information, please contact the Atlanta Capital Management Performance Department at 404-876-9411 or write to Atlanta Capital Management Company, LLC, 1075 Peachtree Street NE, Suite 2100, Atlanta, Georgia 30309, Attention Performance Department. **Past performance does not predict future results.**

Additional Important Information and Disclosures

For Financial Professionals only.

Founded in 1969, Atlanta Capital Management Company, LLC is an SEC-registered investment advisory firm that specializes in managing high quality stock and bond portfolios on behalf of institutional and individual investors. The Firm became a majority-owned subsidiary of Eaton Vance Corp. in 2001. On March 1, 2021, Eaton Vance and its affiliates which included Atlanta Capital Management became a part of Morgan Stanley Investment Management, a division of Morgan Stanley.

The firm continues to operate as Atlanta Capital Management Company, LLC and is located in Atlanta, Georgia. Atlanta Capital claims compliance with the Global Investment Performance Standards (GIPS®). Please contact the Performance Department at 404-876-9411 to request a complete list and descriptions of Atlanta Capital's composites and/or a GIPS Report that adheres to the GIPS® standards.

This material is presented for informational and illustrative purposes only and should not be construed as investment advice, a recommendation to purchase or sell specific instruments, or to adopt any particular investment strategy. Opinions and estimates offered constitute our judgment and are subject to change without notice, as are statements of financial market trends, which are based on current market conditions. This material has been prepared on the basis of publicly available information, internally developed data and other third party sources believed to be reliable, however, no assurances are provided and Atlanta Capital has not sought to independently verify information taken from public and third party sources. Information contained in this material is current as of the date indicated and is subject to change at any time without notice. Please contact Atlanta Capital if you require further clarification on the source or calculation methodology of any data or information presented within this material. Future results may differ significantly from those stated, depending on factors such as changes in instruments or financial markets or general economic conditions. Investing entails risks and there can be no assurance that Atlanta Capital will achieve profits or avoid incurring losses. Atlanta Capital does not provide legal, tax and/or accounting advice or services. Clients should consult with their own tax or legal advisor prior to entering into any transaction or strategy described herein.

Specific securities, sectors and portfolio characteristics mentioned are included only to provide a snap-shot illustrative sample based upon the portfolio management team's current investment strategy as of the date indicated. There is no assurance that any securities or portfolio characteristics mentioned in this document are currently held or will remain in the portfolio at the time you receive this report or that securities have not been sold or repurchased. The specific securities mentioned are not representative of all the securities purchased, sold or recommended for advisory clients. It should not be assumed that any of the securities/sectors were or will be profitable, or that any recommendations in the future will be profitable or will equal the performance of the listed securities. Actual portfolio holdings and performance will vary for each client. This is no guarantee that a particular client's account will hold any, or all, of the securities/sectors mentioned.

Additional Important Information and Disclosures

Past performance is not a reliable indicator of future results. Investment return will fluctuate. Performance is for the stated time period only; due to market volatility, the strategy's performance may be lower or higher than quoted. Benchmark/index information provided is for illustrative purposes only. Indexes are unmanaged and cannot be invested in directly. Strategy deviations from the benchmarks provided herein may include, but are not limited to, factors such as: active management, over/under-weighting specific sectors or securities, limitations in market capitalization, exclusions or inclusions of companies held or not held in the benchmark, and/or client restrictions. Atlanta Capital's proprietary investment process considers factors such as additional guidelines, restrictions, weightings, allocations, market conditions and other investment characteristics. Thus returns may at times materially differ from the stated benchmark and/or other disciplines provided for comparison.

Investing involves risk, including possible loss of principal. The value of investments may increase or decrease in response to economic and financial events (whether real, expected or perceived) in the U.S. and global markets. The value of equity securities is sensitive to stock market volatility. Smaller companies are generally subject to greater price fluctuations, limited liquidity, higher transaction costs and higher investment risk than larger, more established companies. Investments in non-US securities can involve greater risk and volatility because of adverse market, economic, political, regulatory, geopolitical or other conditions. Investing primarily in responsible investments carries the risk that, under certain market conditions, the investments may underperform other strategies that do not utilize a responsible investment strategy. In evaluating a company, the investment adviser is dependent upon information and data that may be incomplete, inaccurate or unavailable, which could cause the investment adviser to incorrectly assess a company's ESG performance.

Investing entails risks and includes the possibility of loss. There can be no assurance that Atlanta Capital will achieve profits or avoid incurring losses. Past performance does not predict future results.

Atlanta Capital Management Company LLC ("Atlanta Capital") is part of Morgan Stanley Investment Management, the asset management division of Morgan Stanley.
